

Success Stories

The Law Enforcement Foundation is asking for your help with some DARE Officer/Child "Success Stories". Please take a moment and think back to some experience with a child when you thought to yourself, "That's why I became a DARE Officer!". It can be any small, insightful, antidote involving a child and his/her DARE Officer.

Then take another minute and share that story with the LEF. They use these positive stories to help when talking with political leaders, businesses and school administrators about the DARE Program.

When you've remembered one of your "success stories" please get permission from the student's parents to reproduce the story. First names only can be used or names can be withheld. Send the "story", written permission, and pictures, if possible, to the attention of Kathryn Gerke, Development Director, Law Enforcement Foundation, 6277 Riverside Dr., Dublin, Ohio 43017, or call her to discuss some "success story" ideas you may have (614) 761 - 9479.

These "stories" are very important moments that should be shared to promote and reinforce the value of DARE!"
